Excellent session
Very nice and interactive
Informative sessions and demos
Excellent
Great workshop and very informative. I came to know that Entrepreneurship allows you to make your dreams a reality. Good speakers and powerpoint – well organized – very informative.
Informative
It was insightful
Excellent!
It was an indeed excellent workshop.
Thanks for the enriching and detailed insights on vital parameters for nurturing of start up ecosystem. The visit was excellently articulated and touched all key aspects. Looking forward for a long term association
It was well organized. All complex contents were delivered in a very simplified manner
Excellent
Very informative workshop.
Outstanding program, very well crafted and executed
There should be more time allocated for actual demonstration of 3D printing to understand it's real time working.
Very informative, very useful for Startups and Researchers
The workshop makes me to look forward to the startups. Also, it will help me in my research work in future.
Nice and informative
The session was very informative for the startup minds
Outstanding program, very well carved and executed
Great
Satisfied and well arranged schedule
Very fruitful workshop and informative session
wonderful and very informative
Very well planned and organized FDP

Please Provide any other topics you wish to suggest for a future talk/ workshop?

Research oriented topics
Cosmetics
HPLC
How to be a good researcher.
Wet labs
Brainstorming on generating ideas
I would like to attend session which will cover more details about how to start journey in startups
Achieving product market fit and commercialization of product.
Successful Research Grants writing
Financial issues with startups
Mass spectrometry and other analytical instruments demonstration.
A detailed workshop on the facilities and expertise provided by the Venture Centre
Overall you have covered everything..But would like to hear more on Startup journey

LC-MS, DSC handling and software learning program. Also CACO-2 cell culture techniques.
Biosimilars
Details of facility that can be shared
Medical Biologics
Hands on training on analytical instruments
Drug discovery
Cell culture studies and microbial testing
If you have any other suggestions, comments, etc., please share them below.
For students visit should be organised in future.
Overall a superb experience
Research collaboration if any
very satisfied with the workshop
