**Please share your Feedback about the talk**

Very nice

This is very enthusiastic experience for me and sure for all of us. I wish to get more information about the analytical techniques and instruments you have and guidance of your to learn about them in a great way.

It was good but next time you should try hands on training

The workshop was well organised and informative for the beginning of start up entrepreneurs.

Overall its Excellent

Very nice and helpful

Provide longer duration workshop

It was a very well conducted workshop.I was left with a different experience about how startups actually grow from scratch. Overall it was a great and knowledgeable experience

The workshop was very informative, got to learn about new instruments and it's use in biotechnology field, also understood how to kickstart our startup

It is best chance to prove itself

The workshop was truly informative.

I as an upcoming computer science engineer still like it and even thinking to do research in the same

The workshop was very informative and useuable for students intrested in invocation and startup in science.

Excellent

Great experience

The demonstration on the LC-MS and FTIR was excellent. The coordination of the faculties with the students are very good. I enjoyed and learned more about the instrument.

Great

Very nice

The workshop was a very well done presentation good speakers well organized very informative.

Overall the workshop was excellent. I would like to be a part of more such workshops in future

Really Worth it

Excellent

It was very great workshop and " Great opportunity for discussion." Thanks I m very inspired by your workshop and all of your ideas that you shared with us.

Great work shop and very informative. This was a very well done presentation and good speakers and PowerPoint.

Workshop was amazing

It was a well organized workshop and all the necessary things as well as topics related to the workshop were covered.

It was good and knowledgeable

Workshop was good

Excellent

It had a good experience

It was great

Very good

It was very informative loved it

Great workshop and very informative.

**Please provide any other topics you wish to suggest for a future talk/ workshop?**

Nice

Advance analytical techniques used for in QC-IPQC labs of various types of chemical and pharmaceutical industries.

Hands on training of different characterization techniques

Ways to grow up start up
