GEENIE is Superior

CyGene

World's first negatively-charged molecule

Novel cell entry mechanism
(non-endosomal cell entry mechanism)

Targeted drug delivery
(HER2+)

Non-toxic and non-immunogenic (in-vitro & in-vivo)

40% dose reduction

Seeding Tomorrow's Enterprises Today

GEENIE is Superior

CyGenica

World's first negatively-charged molecule

Novel cell entry mechanism (cell entry mechanism)

Targeted drug (BEMSA-1002)

Non-toxic and non-carcinogenic (in-vitro & in-mice)

40%
dose reduction

Seeding Tomorrow's Enterprise
Tenacity, not just a word.
Knowledge, not just a word.
Enterprise, not just a word.

GEENIE is Superior

CyGene

World's first negatively-charged molecule

Novel cell entry mechanism (non-toxic)

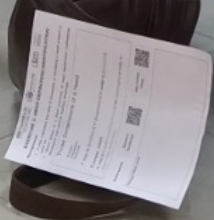

Targeted drug (CD133/VEGF⁺)

Non-toxic and non-immunogenic (In-vitro & In-mice)

40%
dose reduction

GEENIE is Superior

CyGenica

World's first negatively-charged molecule

Novel cell entry mechanism
(the brain's cell entry mechanism)

Targeted drug
(GEMVARY)

Non-toxic and non-immunogenic
(In-vitro & in mice)

40%
dose reduction
