CanScan
An Affordable Breathalyser for Cancer Screening

PROBLEM: Lack of affordable screening for cancer leads to late stage diagnosis and loss of life.

- Stage 1 detection possible: Chances of survival increases to 95%
- Affordable: More hospitals will buy, more people will access
- User friendly: Low operator skills required, deployment in small centres easy
- Safe & Non-Invasive: Can conduct any number of tests without any side effects
- Cancers: Breast, GI, Cervical, Colorectal, Head & Neck

A woman in a pink and white striped dress is standing at a podium, speaking into a microphone. She is the presenter for the CanScan device.

A man in a dark green shirt is sitting on a blue sofa to the left of the stage, listening to the presentation.

An audience of approximately 10-12 people is seated in red chairs, facing the stage. They are attentively listening to the presentation.

A woman in a pink and white striped dress is standing at a podium, speaking into a microphone. She is addressing an audience seated in red chairs.

A man in a dark shirt and glasses is sitting on a blue sofa in the background, looking towards the speaker.

An audience of approximately 10-12 people is seated in rows of red chairs, facing the stage. They are listening attentively to the presentation.

Sarvoshadhi Biotech Pvt. Ltd.
 Customized Solutions for Cell Culture

Serum-Free Chemically-defined Cell Culture Medium for Vaccines and Biosimilars
 Prasad G. Rote – Founder Director (prasadrote@sarvoshadhi.com)

Disadvantages of Serum

- Highly variable performance
- Animal origin – Safety concerns and ethical issues
- Expensive with supply constraints
- Regulatory issues

Products – Serum-Free Chemically-Defined Cell Culture Medium, Feed and Other Reagents

Recognitions – Recipients of NIOS-PRASIS (DIT), IIS and BIF (BRAC) grants

Milestones Achieved

- Formulations developed for multiple mammalian cell lines used in vaccine and biosimilars
- Medium and feed for CHO cell supports higher productivity than imported products

Supporting Organizations

BHK-21 cell line growth (serial passages)
